

ITALIAN ADVANCED SOLUTIONS

Maxima was founded and provided advanced solutions since 1997 in Italy. This green innovation leads to production of machines for total optimum cleaning, systems of ironing and domestic appliances. Maxima machine systems are ergonomically and environmentally safe, a real game changer in the industry.

MAXIMA

ITALIAN ADVANCED SOLUTIONS

THE MAN BEHIND

He is the International Sales Director of Maxima in Singapore and Asia. Maxima have such a profound and established personality behind its success through his management. This made our company's developments so far make us look to the future with great confidence. His legacy, professionalism, and achievements are all known and raised the standards of Maxima.

FACV TO MARKET

Our machines are created to provide advanced solutions.
With the rise of pandemic, the growth in demand of our products vastly increased. We focused on the durability and quality of our products that made it competitive to the market.

CONSUMER FRIENDLY

We make our consumers lives simple and easy.

Our machines are easy to be manoeuvred and won't take too much space to be kept. The quality of our products equates to the quality of living you can experience.

MAXIMA SINGAPORE

HERA SERIES

A revolutionary cleaning equipment with multiple functions that assures great surface hygiene is here. This machine is indeed safe and eco-friendly as it uses water as its main element.

This machine embodies the latest model amongst the new generation multifunction devices and is the result of a new thorough research by people who are focusing on cleanliness and innovation both at the same time.

- Shockproof and high-resistant plastics
 - Built-in rubber cord winder •
 - Intuitive cooled ergonomic handle
 - Control panel with digital display •
 - Controls and settings also on the handle
 - Dual-turbine motor •
- Excellent holding capacity of the most 6 litres
 - Biggest water filter in its class
 - Molecular separator •
 - 6-bar steam with unlimited autonomy
 - Energy Saving boiled

The rise of the COVID-19 pandemic made us prioritize our health and safety even better. We become more conscious on where we go and what we touch. COVID-19 is caused by a virus that can fall on surfaces. If people touch certain surfaces and then touch their nose, mouth, or eyes, they may become infected. We are safe if we stay at the comfort of our homes. But can't settle for less, we can be safer! It is in this light that we bring you our Hera Plus.

WHY SHOULD YOU CHOOSE HERA PLUS?

- This machine is safe and eco-friendly because it uses water as its main element.
- It can combat the threats and health worries brought by this pandemic.
- By purchasing our innovative product, you can also save your finances because by buying our machine, you will experience the power of five.
- It sucks unwanted particles on the surface of your house-hold.
- It washes away dirt and makes the surface clean
- It dries up cleaned materials after washing
- It sanitises your surroundings and kills the virus
- It irons fabric in the most convenient way
- It has a Power Jet Enriched Steam that improves the steam and dirt removal efficiency.

MAXIMA: POWERFUL STEAM TECHNOLOGY

Steam with tested effectiveness for more hygienic and clean surfaces.

MAXIMA: SAVING WATER, SAVE THE EARTH

We all know that water is an essential part of life. We need it daily to live and perform vital functions in the body. It really is an extremely important substance.

Water covers 70% of our planet, and it is easy to think that it will always be plentiful. However, freshwater the stuff we drink, bathe in, irrigate our farm fields with is incredibly rare. Only 3% of the world's water is fresh water, and two-thirds of that is tucked away in frozen glaciers or otherwise unavailable for our use.
